THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Amendment filed on date: 08/10/2010.
Claims 1-4, 6, 7, 9, 10, 12, 13 and 16-21 are still pending.
Claims 5, 8, 11, 14 and 15 have been cancelled.

Reasons for Allowance

2. Claims 1-4, 6, 7, 9, 10, 12, 13 and 16-21 are allowed.

The following is a statement of reason for the indication of allowance:

Independent claims 1, 9, 12 and 16 have been amended to overcome the rejection, which was presented in the Office Action mailed 05/13/2010 (see REMARKS pages 14-22).

The closest references are found:

Hatch discloses that "On receiving an SMS message for the first mobile phone 3, for example from the second mobile phone 4, the short message service center 2 queries the home location register 7 for the SMS gateway for the user of the first mobile phone 3. Normally this will be that of the SMS gateway 8. However, if the user of the first mobile phone 3 has informed the network operator that text message forwarding by email is to be enabled, the home location register 7 will return an address for the SMS-SMTP gateway 9. The short message service center 2 forwards the message to the gateway identified by the home location register" (see specification for more details).

Maierhofer discloses that “A method for transmitting a text message from a first mobile radio terminal to a second mobile radio terminal in a mobile radio network linked to a data network, in particular to an IP network. The entered data being routed together with the telephone number and a data network address for the first mobile radio terminal to an associated service control point in the mobile radio/data network in order to check the memory content and also to perform a debit operation and to forward the text message.” (see specification for more details).

Gress discloses that “The SMSC 10 accesses SMS subscriber information in step 62 from an SMS subscriber directory 11 based on the source address (SA) or destination address (DA) specified within the SMS message. If neither source address nor destination address specify auto forwarding to the unified messaging system 20, the SMSC sends the short message in step 64 to the wireless device specified by the destination address; however if the SMS subscriber information in the SMS subscriber directory 11 specifies that either the source address or destination address wants a copy of the SMS message forwarded to the unified messaging system 20, the SMSC 10 also sends a copy of the short message in step 66 to the unified messaging server 20 via SMPP protocol” (see specification for more details).

However, the combination or each of the cited references above does not disclose nor fairly suggest each and every amended limitation of independent claims 1, 9, 12 and 16, therefore claims 1-4, 6, 7, 9, 10, 12, 13 and 16-21 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
